EXPERIENCE

April 2023 – Current

Software developer, Dev Sankalp Consultancy LLC

- Contributed to multiple projects across diverse programming languages and frameworks, including **Next.js, React.js, React Native, Expo, Redux, Mobx, AWS Amplify, and GraphQL**.
- Experienced in deploying mobile applications and managing updates through **TestFlight, EAS Build, and Android Build tools.**
- Proficient in deploying web applications and releasing updated versions using platforms like **Vercel and DigitalOcean**.
- Skilled in identifying performance bottlenecks and implementing solutions to enhance app **speed, optimize loading times, and improve overall user experience**.
- **Key Projects:**
    - **Pollsboard:** Developed using React.js, GraphQL, and hosted on DigitalOcean.
    - **EatFit** Mobile App: Built with React Native using **Mobx.**
    - **Workwiz**: Built with Next.js, Vercel, and AWS Amplify.
    - **Workwiz** Mobile App: Developed with React Native using **redux.**

March 2022 – April 2023

Consultant, Avanade (Client: One of largest coffee chain in Canada)

- Worked as a part of design team for API development to provide it to service teams.
- Created **JavaScript NPM libraries** with **TypeScript** that can be used by other teams to develop cross-platform web applications.
- Experience working with **Storybook** to display test UI components.
- Join product owner **in planning for sprint**.
- Helping junior developers with **onboarding and mentoring** throughout the journey.
- Doing code reviews as well as shipping the releases of latest software version using **Git** version control.
- Leading technical and architectural decisions to ensure quality and consistency of the code.

June 2020 – March 2022

React Native developer, Myant (Healthcare Industry)

- Develop a cross-platform mobile app **in React-Native**.
- Experience using **Redux** framework to manage state management.
- Writing lightweight backend microservices using **nodejs, express and postman.**
- Working on Saving data **to localDB using SQlite, Writing Apollo GraphQL queries** to make an API calls from backend, Implementing in App design from **Figma,** routing etc.
- Experience utilizing **Firebase** services for notifications, builds distributions, etc.

April 2015 – November 2017

Software developer, Softvan

- Complete detailed programming and development tasks for front end as well as back-end.
- Participated in the full life cycle of software development, code, maintained continuous integration and deployed code on upper environments.
- Experience in writing Single Page Application in **React**.
- Write and maintain technical specifications documentation in **Jira confluence.**

EDUCATION

SKILLS

TECHNICAL

- **Mobile (Hybrid):** Android, Ios (React Native)
- **Backend:** Node.js, Firebase, JAVA
- **Frontend:** React.js, React Native, JavaScript, TypeScript, HTML, CSS, Bootstrap, Material UI
- **Database:** MongoDB, GraphQL, MSSQL, Google Cloud SQL
- **Third-Party API integration:** Contentful, Storybook, Google Map, i18n, SQLite for local storage, Barcode generation, BLE, Redux, MobX
- **Deployment:** Google Play Store, GitHub release, firebase distribution, firebase hosting
- **Push notifications:** Firebase
- **App Analytics:** Sentry
- **Teamwork:** GitHub, Bitbucket
- **Project Management Tool:** JIRA, Atlassian, Asana
- **Testing:** unit and integration testing, Jest
- **Cloud Platform:** GCP (Google Cloud Platform)
- **Software tools:** Visual Studio code, GitBash, XCode, Android Studio
- **Framework**: WordPress, Bootstrap, MVC, Express

CERTIFICATION

- Professional Scrum Master (Agile Methodologies)
- GCP Essential (Creating a virtual machine, Getting Started with Cloud shell & gcloud, Kubernetes Engine: Qwik Start, Set up Network and Http Load Balancers)
- Imagine Digital India Summit (Cloud Computing)
- Azure fundamentals (AZ-900)

QUALIFICATION

- Ambitious, self-motivated with a great sense of humor
- Broadminded with a habit of following an unprecedented approach to solve a problem
- Adaptive, quick learner and passionate with willingness to learn new tools and technologies
- Clear understanding of computer fundamentals like OOPs concept and Test Driven Development
